

Hotel Ticket Package

**A Low-Cost, Convenient
High Service Means of
Providing In-and-Out
Privileges For Your Hotel
Guests.**

Now your hotel guests can use the bar-coded ticket they pulled on entry into your facility for exit and re-entry for the length of their stay.

A guest enters the facility by pulling a ticket from the ticket dispenser. When he checks in to the hotel, that ticket must also be "checked in" so it can be used to exit and re-enter the facility for the length of his stay. The check in process internally flags the ticket as a guest ticket, defines the length of the stay, and assigns a room number to it. Once the ticket has been checked in, it can check for passback. When assigned number of days elapse the ticket will be considered "timed out" and can no longer be used to exit or enter the facility.

A specially marked ticket reader at the re-entry lane and either another ticket reader at exit or any Secom cashier terminal or ticket acceptor.

With the Hotel Ticket Package you can:

- *Assure all charges post to the guest folio;*
- *Keep the gates down 24/7;*
- *Use with valet or self-park or both;*
- *Collect all your revenue;*
- *Retain all your tickets for audit controls;*
- *Use coupon tickets and on-line validations*
- *Economical and easy to use;*
- *Increase bottom line profits!*

HOTEL TICKET PACKAGE

Secom: All Level Four Controls

Applications:

- Hotels, Motels, Resorts

Any property where multiple entrance and exits are required for a temporary period.

- Convention Centers

Great for vendors, exhibitors and registered guests who need the flexibility to come and go from these venues.

- Hospitals and extended care facilities

Visitors to these patients will often need to enter the parking facilities many times during the visiting day. Convenience and control are increased significantly when tickets are turned on and off for prescribed periods of time.

- Schools and Professional Learning Centers

Turn their bar-coded tickets into multi-day passes for their exact length of stay requirements. The system can also limit the usage to assigned time zones. This is a powerful tool that can be coupled with ticket nesting for maximum revenue control and space allocation.

Secom International builds, installs and services on-line, real time parking access and revenue control systems for clients worldwide. Unlike other parking revenue control companies, Secom's rigorous controls begin at Level Four and only get tougher. Secom offers machine readable ticket dispensers and fee calculating terminals, automated pay stations, express exits, automatic vehicle identification (AVI), access cards and readers, on-line validation systems, interactive lot capacity displays, with over 100 custom software choices, and PC driven DataView[™] custom query and report generator. Integrated security controls, point-of-sale and access controls are also available. Contact Secom International to find-out how we can help you collect more of your parking revenue and consistently lower your overall costs of operations.

Publication 7-01 Secom International 9610 Bellanca Avenue, Los Angeles, CA 90045 - Fax (310)216-6693 Phone (310) 641-1290 www.secomintl.com

System Requirements:

Hardware -

Controller must be Secom's robust 030 Server System. Post mounted ticket readers on entry and on exit if desired.

Software -

PSS-MR-25 Machine Readable Technology
PSS-HS-26 Hotel Ticket Software

Note -

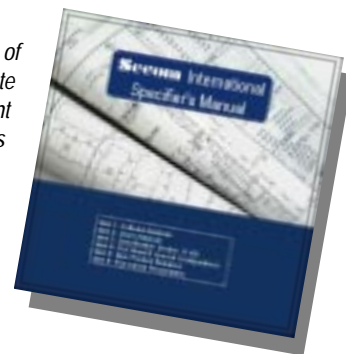

Any Secom system equipment can be upgraded to the 030 Server System and necessary peripheral devices to support the Auto Cashier.

Any other brand of equipment will need to have the controller, and ticket dispensers changed to Secom to support Auto Cashier. Existing card system (contact factory for compatible systems), intercom system and gates may still be utilized.

How to Order:

Call your local factory representative, authorized dealer or the Secom corporate headquarters in Los Angeles at (310) 641-1290. A sales representative will assist you in determining costs and utility of the Hotel Ticket System for your specific facility.

Request your copy of Secom's complete revenue management tools, specifications and cut-sheets. Available now on CD-Rom.
