

# ETA: The Exit Ticket Acceptor

## *With A Flair!*

- Rate Calculation
- Credit Card Processing
- Roving Cashier Exception Handling

Automate the exit lane and increase throughput with the ticket acceptor that processes prepaid tickets within one second. Money due? Unlike other exit verifiers, this unit is not going to send you back to the cashier. The amount due is calculated and displayed for in-lane, on-line credit card processing. Have more than one lane? With Secom's ticket acceptor all credit card verification is processed at the central system server -- only one phone connection is needed for credit card processing, no matter how many exit lanes!

This rugged ticket acceptor can be dropped right into your existing parking island and become the relief cashier for the night shift and other off-peak times. Now you can determine the best time to send the cashier home. You will be back in control of your garage with this easy-to-use ticket acceptor, maintaining full revenue and lane monitoring activity.

A quick return on investment (ROI) calculation will justify the addition of this piece of equipment to your revenue control system.

As with all Secom lane equipment, high quality stainless steel construction means long life, high security and low maintenance.

*Publication 12-02 Secom International 9610 Bellanca Avenue, Los Angeles, CA 90045 - Fax (310)216-6693 Phone (310) 641-1290 - Website: [www.secomintl.com](http://www.secomintl.com)*

### *The Ticket Acceptor with the:*

- *Fast - Express exit processing*
- *Low profile*
- *Rugged stainless steel construction*
- *Ability to process exception transactions*
- *Use coupon tickets and on-line validations*
- *Increase bottom line profits!*

*Use the ticket acceptor around the clock or merely for those off-peak times when it just doesn't pay to keep an attendant on shift.*

**The right tools for the job!**

## ETA: EXIT TICKET ACCEPTOR - *with a flair!*

### Applications:

#### **- Large, Busy Locations**

Coupled with central cashiering or pay-on-foot stations these ticket acceptors allow increased exit lane throughput. Exceptions can be handled as credit card transactions or by a cashier with a special 'Roving Cashier' card that acts as a virtual cashier and produces a complete end of shift report on money collected.

#### **- Small Garages and Surface Lots**

A Secom ticket acceptor is a natural winner in low volume and low turn-over locations where it is difficult to justify the costs of a cashier at all.

#### **- Corporate Facilities**

Validate your authorized visitors and charge all others a premium without incurring employment costs. Busy corporate campuses often provide free parking for unauthorized vehicles. Not with Secom's ticket acceptors - now you can charge these miscreants a premium to use your space.

Secom International builds, installs and services on-line, real time parking access and revenue control systems for clients worldwide. Unlike other parking revenue control companies, Secom's rigorous controls begin at Level Four and only get tougher. Secom offers machine readable ticket dispensers and fee calculating terminals, automated pay stations, express exits, automatic vehicle identification (AVI), access cards and readers, on-line validation systems, interactive lot capacity displays, with over 100 custom software choices, and PC driven DataView™ custom query and report generator. Integrated security controls, point-of-sale and access controls are also available. Contact Secom International to find-out how we can help you collect more of your parking revenue and consistently lower your overall costs of operations.

### System Requirements:

#### **Hardware -**

Controller must be Secom's robust 030 Server System  
Ticket Dispenser must be TD-01A-MR by Secom.  
TA-02 Ticket Acceptor

#### **Software -**

PSS-MR-25 Machine Readable Technology  
Roving Cashier Feature  
On-line Credit Card Verification

#### **Note -**

Any Secom system equipment can be upgraded to the 030 Server System and necessary peripheral devices to support a ticket acceptor.

Any other brand of equipment will need to have the controller, and ticket dispensers changed to Secom to support the ticket acceptor. Existing card system (contact factory for compatible systems), intercom system and gates may still be utilized.

### How to Order:

Call your local factory representative, authorized dealer or the Secom corporate headquarters in Los Angeles at (310) 641-1290. A sales representative will assist you in determining costs and utility of The Relief Cashier paystation configuration for your specific facility.
