

Time Zone Violator: Convert-to-Cash

**An Income Generating
Means of Assuring the
Cardholder Population
Follows the Rules.**

You have a busy office building and want to lease out your parking during off hours to surrounding apartment dwellers for evening and weekend space, but you don't want them in during normal business hours --unless they pay the going rate --or more.

Students attend evening classes and pay a flat rate during their class hours, but not during the busy Friday & Saturday night restaurant and night club times --unless they pay the going rate --or more.

Office building tenants are under contract to park during normal business hours, but not during the popular evening and weekend times when the structure serves the dinner and movie goers, --unless they pay the going rate --or more.

With Time Zone Violator: Convert-to-Cash, you can allow your cardholders all the privileges defined in their contract and charge cash for any usage or charges incurred outside their contract limits. You can even set-up different programs and charges for different cardholder groups.

With Time Zone Violator: Convert -to-Cash, you can:

- ***Reduce the need for management interaction;***
- ***Simplify accounting of charges;***
- ***Collect all your revenue;***
- ***Offer a high level of service to your tenants;***
- ***Increase bottom line profits!***

Time Zone Violator: Convert-to-Cash can be retrofitted into any current Secom Server 030 System and satellite systems.

TIME ZONE VIOLATOR: CONVERT-TO-CASH OR CREDIT

Applications:

- Mixed Use Retail & Office Locations

Lease out the lower demand times without losing money during peak demand periods. Nothing to administer, if they're in the garage when they are not supposed to be, they simply pay the going rate, or more. You program it. You choose.

- Universities & Medical Centers

Cardholders can be allocated parking privileges based on class or duty schedules. When they are "IN" past their allotted time, they simply pay the difference --in cash. You choose whether to let them in or not when they are outside their time zone.

Secom International builds, installs and services on-line, real time parking access and revenue control systems for clients worldwide. Unlike other parking revenue control companies, Secom's rigorous controls begin at Level Four and only get tougher. Secom offers machine readable ticket dispensers and fee calculating terminals, automated pay stations, express exits, automatic vehicle identification (AVI), access cards and readers, on-line validation systems, interactive lot capacity displays, with over 100 custom software choices, and PC driven DataView™ custom query and report generator. Integrated security controls, point-of-sale and access controls are also available. Contact Secom International to find-out how we can help you collect more of your parking revenue and consistently lower your overall costs of operations.

Publication 4-03 Secom International 9610 Bellanca Avenue, Los Angeles, CA 90045 - Fax (310)216-6693 Phone (310) 641-1290 www.secomintl.com

System Requirements:

Hardware -

Current Server 030 System with 030-U12 Subscription Machine Readable Ticket Dispensers & Cashier Terminals or Ticket Acceptors

Optional: PS-Val-08 On-line Ticket Validators

Software -

PSS-MR-25 Machine Readable Technology
